This was a web facelift that the client rejected. Nonetheless, it has some good things going on. I designed the logo, the title headers, and the GUI using Illustrator and Photoshop.

This was a concept to launch project that involved creating a brand for a start-up. I designed the logo, business cards, a website, brochures, and signage; plus I worked a lot on SEO and to get high visibility in Google. I designed all graphic elements in Adobe Create Suite.

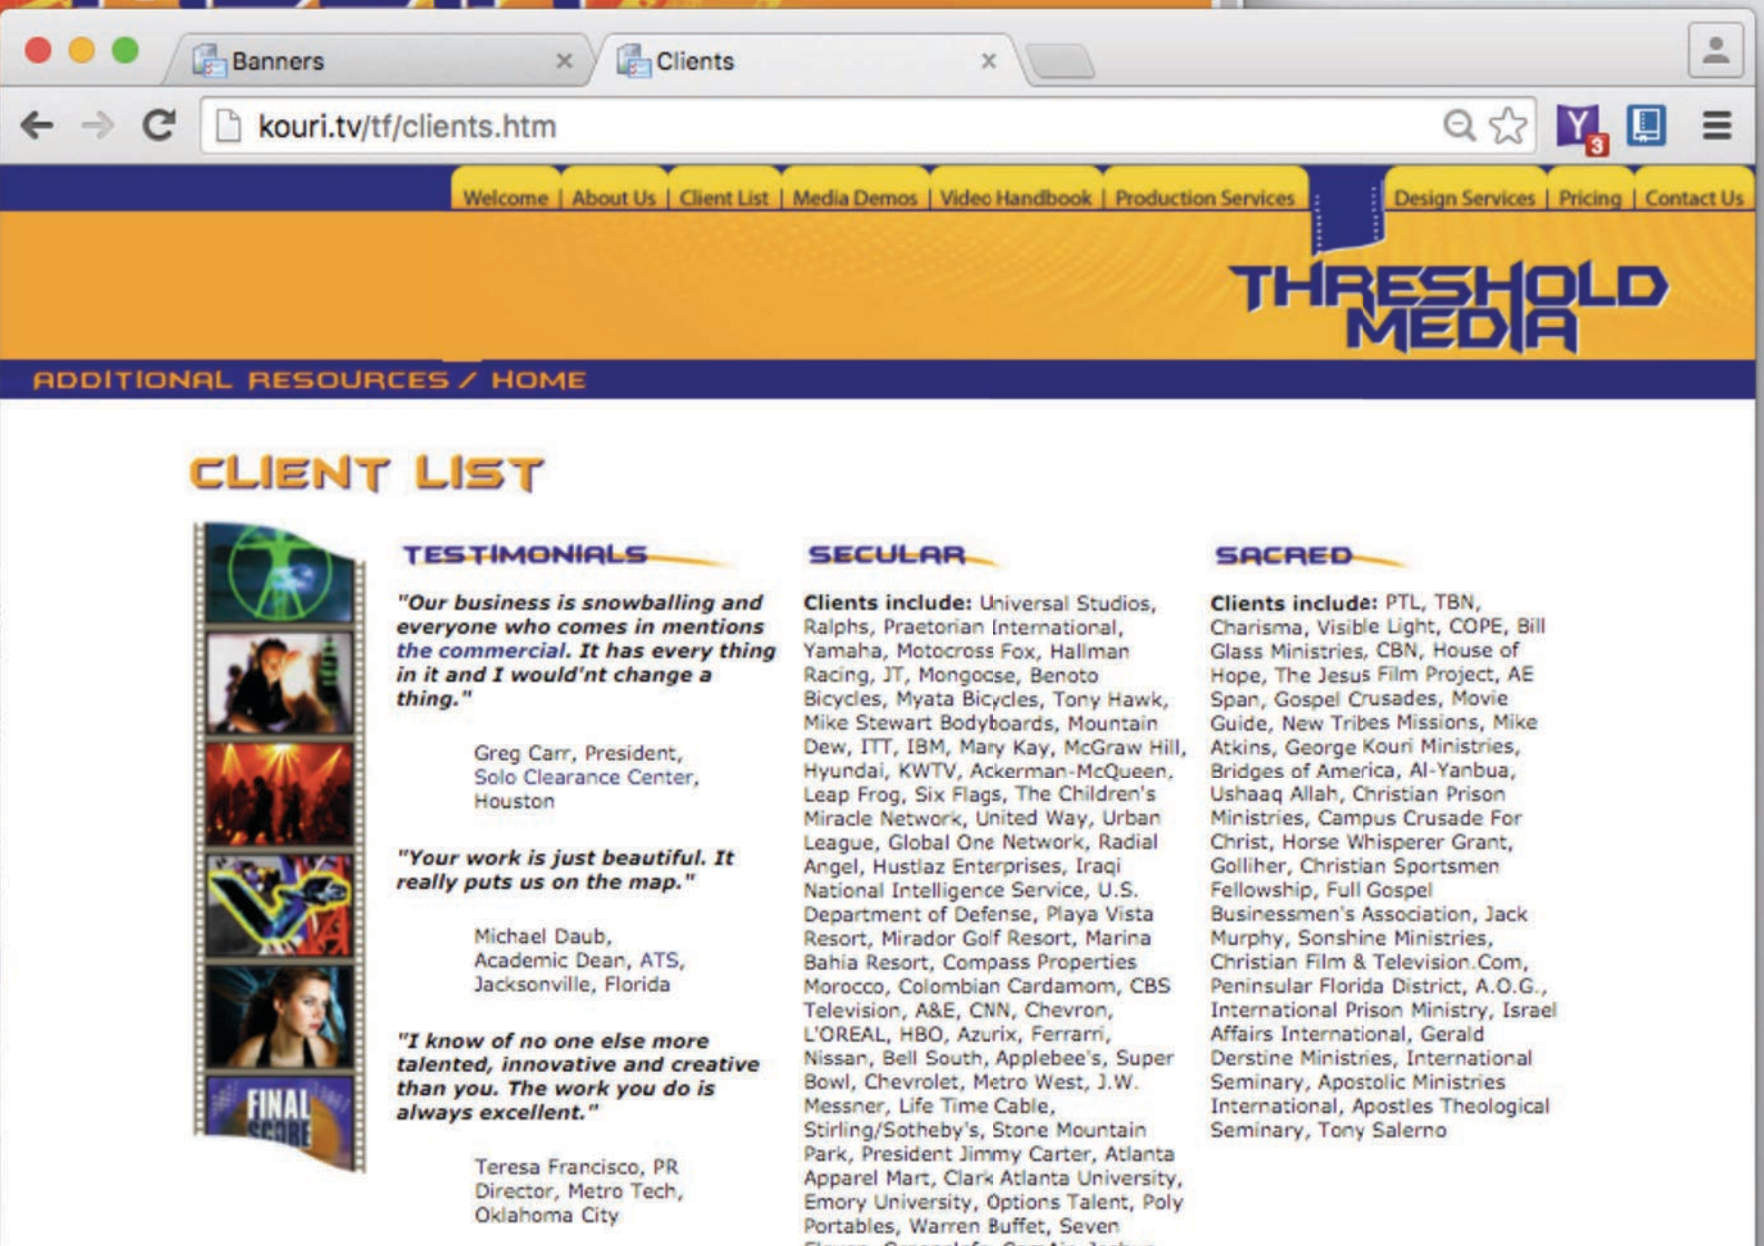

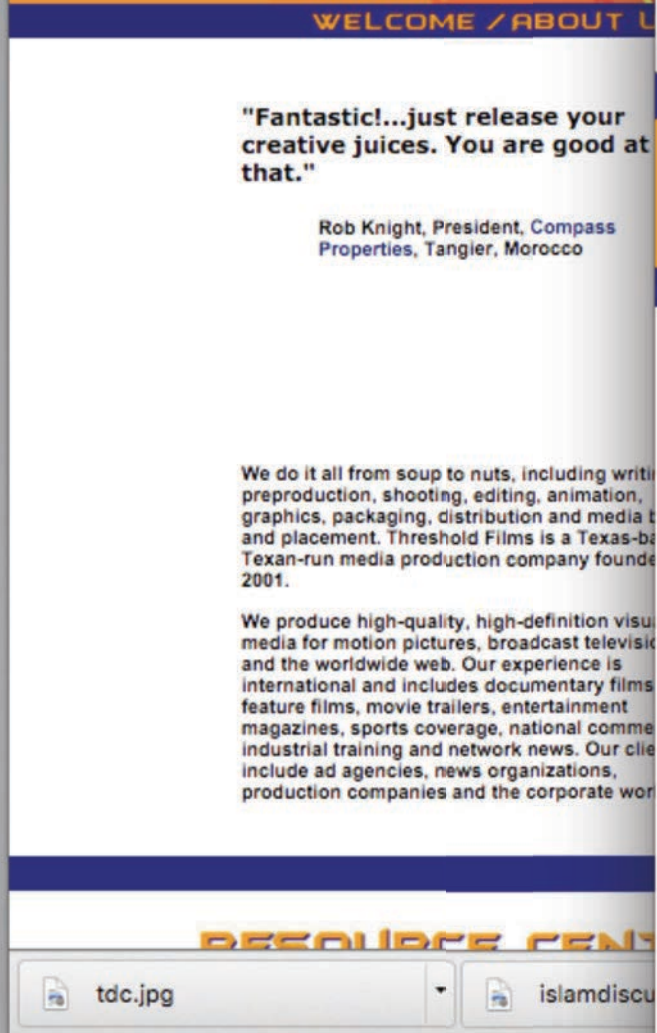

We're ready when you are to help you on your next metal project, so give us a call.

This was another concept to launch project. I designed the logo I also used the Adobe Create Suite for creating all graphics and webpages.

Two Legends Teeing Up!
The weather couldn't have been better on Friday the 3rd of October as **Fred Funk, Calvin Peete, Evan Berlin and Mike Lattuca** teed it up for this historic round between the games most accurate players ever. Regrettably, Calvin Peete withdrew after 9 holes with a shoulder injury but play continued with the results being, Mike Lattuca and Evan Berlin shooting 73, 1 over and Fred Funk shooting 74. Young Evan Berlin reached the par 5 18th hole in two with a terrific shot. Fred Funk also hitting the par 5 in 2 did it with a 3 iron from about 220 yards. Both eagle putts came up short but allowed for easy tap in birdies. Mike Lattuca, being the shortest hitter in the group took his 2nd shot down the left side of the water and left a 77 yard approach that caused a 2 putt par.

Fred's humor and personality caused for a great day with over 30 members of The Plantation and others following for the entire round. Young Taylor Funk, 13, joined us and it was evident he was a Funk as his accuracy down the fairways was fun to watch.
